Hi Sarah,

It was a pleasure speaking with you earlier, and I can't wait to get started working together. On that note, per our conversation regarding the RV that is not on wheels--please see the attached photos.

If you have any recommendations, or questions, please let me know. I am also including Senior Lead Officer Cesar Gonzalez on this email thread to help provide any background information from the LAPD perspective.

As just some information--I am working multiple angles to see if it is possible to do something with DOT regarding parking restrictions. Currently there is a "no parking from 10PM-5AM" in place--but I am considering a no overnight parking except with permits. Considering the fact this is not being considered a vehicle, and the fact that someone is residing in it, I don't think that would provide a real solution. Additionally, this individual is using water from a water meter nearby at a property, and has been stealing copper wires, and electricity from nearby poles. Lastly, DWP has notified their Director of Security of this and they are working on addressing it, and BSL is working on securing any loose wires (if they have not already done so).

Abraham has also surveyed the property, so any info. could be found useful.

Any guidance would be greatly appreciated. Thank you in advance!
